

## Tanks for Nickel Mine Processing Facility

### Case Study Details

Vale built a new paste plant for their nickel mine and they required tanks for various plant applications. H2Flow Tanks supplied two epoxy-fused-to-steel tanks.

Paste Plant Reclaim Water Tank, Model 2227.5

Volume: 290 m<sup>3</sup>

Diameter: 6.9 m

Height: 7.8 m

Booster Station Reclaim Water Tank, Model 1415

Volume: 60 m<sup>3</sup>

Diameter: 4.3 m

Height: 4.3 m

**Construction Date:** May 2021
